

IMPLEMENTING REGULATIONS TO THE EUROPEAN PATENT CONVENTION

of 5 October 1973

as adopted by decision of the Administrative Council of the European Patent Organisation
of 7 December 2006

PART I IMPLEMENTING REGULATIONS TO PART I OF THE CONVENTION

CHAPTER I GENERAL PROVISIONS

Rule 1

Written proceedings

In written proceedings before the European Patent Office, the requirement to use the written form shall be satisfied if the content of the documents can be reproduced in a legible form on paper.

Rule 2

Filing of and formal requirements for documents

(1) In proceedings before the European Patent Office, documents may be filed by delivery by hand, by post or by technical means of communication. The President of the European Patent Office shall lay down the details and conditions and, where appropriate, any special formal or technical requirements for the filing of documents. In particular, he may specify that confirmation must be supplied. If such confirmation is not supplied in due time, the European patent application shall be refused; documents filed subsequently shall be deemed not to have been received.

(2) Where the Convention provides that a document must be signed, the authenticity of the document may be confirmed by handwritten signature or other appropriate means the use of which has been permitted by the President of the European Patent Office. A document authenticated by such other means shall be deemed to meet the legal requirements of signature in the same way as a document bearing a handwritten signature which has been filed in paper form.

Rule 3

Language in written proceedings

(1) In written proceedings before the European Patent Office, any party may use any official language

of the European Patent Office. The translation referred to in Article 14, paragraph 4, may be filed in any official language of the European Patent Office.

(2) Amendments to a European patent application or European patent shall be filed in the language of the proceedings.

(3) Documentary evidence and, in particular, publications may be filed in any language. The European Patent Office may, however, require that a translation in one of its official languages be filed, within a period to be specified. If a required translation is not filed in due time, the European Patent Office may disregard the document in question.

Rule 4

Language in oral proceedings

(1) Any party to oral proceedings before the European Patent Office may use an official language of the European Patent Office other than the language of the proceedings, if such party gives notice to the European Patent Office at least one month before the date of such oral proceedings or provides for interpretation into the language of the proceedings. Any party may use an official language of a Contracting State, if he provides for interpretation into the language of the proceedings. The European Patent Office may permit derogations from these provisions.

(2) In the course of oral proceedings, employees of the European Patent Office may use an official language of the European Patent Office other than the language of the proceedings.

(3) Where evidence is taken, any party, witness or expert to be heard who is unable to express himself adequately in an official language of the European Patent Office or of a Contracting State may use another language. Where evidence is taken upon request of a party, parties, witnesses or experts expressing themselves in a language other than an official language of the European Patent Office shall be heard only if that party provides for interpretation into the language of the proceedings. The European Patent Office may, however, permit interpretation into one of its other official languages.

(4) If the parties and the European Patent Office agree, any language may be used.

CHAPTER II
ORGANISATION
OF THE EUROPEAN PATENT OFFICE

Section 1
General matters

Rule 8
Patent classification

The European Patent Office shall use the classification referred to in Article 1 of the Strasbourg Agreement concerning the International Patent Classification of 24 March 1971, hereinafter referred to as the international classification.

Rule 9
Administrative structure
of the European Patent Office

(1) The European Patent Office shall be divided administratively into Directorates-General, to which the departments specified in Article 15, and the services set up to deal with legal matters and the internal administration of the Office, shall be assigned.

(2) Each Directorate-General shall be directed by a Vice-President. The assignment of a Vice-President to a Directorate-General shall be decided by the Administrative Council, after the President of the European Patent Office has been consulted.

Rule 10
Responsibility of the Receiving Section
and the Examining Division

(1) The Receiving Section shall be responsible for the examination on filing and the examination as to formal requirements of a European patent application up to the time when the Examining Division becomes responsible for the examination of the European patent application under Article 94, paragraph 1.

(2) Subject to paragraphs 3 and 4, the Examining Division shall be responsible for the examination of a European patent application under Article 94, paragraph 1, from the time when a request for examination is filed.

(3) If a request for examination is filed before the European search report has been transmitted to the applicant, the Examining Division shall, subject to paragraph 4, be responsible from the time when the European Patent Office receives the indication under Rule 70, paragraph 2.

(4) If a request for examination is filed before the European search report has been transmitted to the applicant, and if the applicant has waived the right under Rule 70, paragraph 2, the Examining Division shall be responsible from the time when the search report is transmitted to the applicant.

(5) The European Patent Office shall, if necessary, provide at its own expense interpretation into the language of the proceedings, or, where appropriate, into its other official languages, unless such interpretation is the responsibility of one of the parties.

(6) Statements by employees of the European Patent Office, parties, witnesses or experts, made in an official language of the European Patent Office, shall be entered in the minutes in that language. Statements made in any other language shall be entered in the official language into which they are translated. Amendments to a European patent application or European patent shall be entered in the minutes in the language of the proceedings.

Rule 5
Certification of translations

Where the translation of a document is required, the European Patent Office may require that a certificate that the translation corresponds to the original text be filed within a period to be specified. If the certificate is not filed in due time, such document shall be deemed not to have been filed, unless otherwise provided.

Rule 6
Filing of translations and reduction of fees

(1) A translation under Article 14, paragraph 2, shall be filed within two months of filing the European patent application.

(2) A translation under Article 14, paragraph 4, shall be filed within one month of filing the document. This shall also apply to requests under Article 105a. Where the document is a notice of opposition or appeal, or a statement of grounds of appeal, or a petition for review, the translation may be filed within the period for filing such a notice or statement or petition, if that period expires later.

(3) Where a person referred to in Article 14, paragraph 4, files a European patent application, a request for examination, an opposition, an appeal, a petition for review or a request for limitation or revocation in a language admitted in that provision, the filing fee, examination fee, opposition fee, appeal fee, fee for the petition for review or the limitation or revocation fee shall be reduced in accordance with the Rules relating to Fees.

Rule 7
Legal authenticity of the translation
of the European patent application

Unless evidence is provided to the contrary, the European Patent Office shall assume, for the purpose of determining whether the subject-matter of the European patent application or European patent extends beyond the content of the application as filed, that the translation filed under Article 14, paragraph 2, or Rule 40, paragraph 3, is in conformity with the original text of the application.

Rule 11

Allocation of duties to the departments of first instance

(1) Technically qualified examiners acting as members of Search, Examining or Opposition Divisions shall be assigned to Directorates. The President of the European Patent Office shall allocate duties to these Directorates by reference to the international classification.

(2) The President of the European Patent Office may allocate further duties to the Receiving Section, the Search, Examining and Opposition Divisions, and the Legal Division, in addition to the responsibilities vested in them under the Convention.

(3) The President of the European Patent Office may entrust to employees who are not technically or legally qualified examiners the execution of duties falling to the Search, Examining or Opposition Divisions and involving no technical or legal difficulties.

Section 2

Organisation of the Boards of Appeal and the Enlarged Board of Appeal

Rule 12

Presidium of the Boards of Appeal

(1) The autonomous authority within the organisational unit comprising the Boards of Appeal (the "Presidium of the Boards of Appeal") shall consist of the Vice-President in charge of the Boards of Appeal, who shall act as chairman, and twelve members of the Boards of Appeal, six being Chairmen and six being other members.

(2) All members of the Presidium shall be elected by the Chairmen and members of the Boards of Appeal for two working years. If the full composition of the Presidium cannot be reached, the vacancies shall be filled by designating the most senior Chairmen and members.

(3) The Presidium shall adopt the Rules of Procedure of the Boards of Appeal and the Rules of Procedure for the election and designation of its members. The Presidium shall further advise the Vice-President in charge of the Boards of Appeal with regard to matters concerning the functioning of the Boards of Appeal in general.

(4) Before the beginning of each working year, the Presidium, extended to include all Chairmen, shall allocate duties to the Boards of Appeal. In the same composition, it shall decide on conflicts regarding the allocation of duties between two or more Boards of Appeal. The extended Presidium shall designate the regular and alternate members of the various Boards of Appeal. Any member of a Board of Appeal may be designated as a member of more than one Board of Appeal. These measures may, where necessary, be amended during the course of the working year in question.

(5) The Presidium may only take a decision if at least five of its members are present; these must include the Vice-President in charge of the Boards of Appeal or his deputy, and the Chairmen of two Boards of Appeal. Where the tasks mentioned in paragraph 4 are concerned, nine members must be present, including the Vice-President in charge of the Boards of Appeal or his deputy, and the Chairmen of three Boards of Appeal. Decisions shall be taken by a majority vote; in the event of parity of votes, the Chairman or his deputy shall have the casting vote. Abstentions shall not be considered as votes.

(6) The Administrative Council may allocate duties under Article 134a, paragraph 1(c), to the Boards of Appeal.

Rule 13

Business distribution scheme for the Enlarged Board of Appeal and adoption of its Rules of Procedure

(1) Before the beginning of each working year, the members of the Enlarged Board of Appeal appointed under Article 11, paragraph 3, shall designate the regular and alternate members of the Enlarged Board of Appeal in proceedings under Article 22, paragraph 1(a) and (b), and the regular and alternate members in proceedings under Article 22, paragraph 1(c).

(2) The members of the Enlarged Board of Appeal appointed under Article 11, paragraph 3, shall adopt the Rules of Procedure of the Enlarged Board of Appeal.

(3) Decisions on matters mentioned in paragraphs 1 and 2 may only be taken if at least five members are present, including the Chairman of the Enlarged Board of Appeal or his deputy; in the event of parity of votes, the Chairman or his deputy shall have the casting vote. Abstentions shall not be considered as votes.

PART II

IMPLEMENTING REGULATIONS TO PART II OF THE CONVENTION

CHAPTER I

PROCEDURE WHERE THE APPLICANT IS NOT ENTITLED

Rule 14

Stay of proceedings

(1) If a third party provides evidence that he has instituted proceedings against the applicant seeking a decision within the meaning of Article 61, paragraph 1, the proceedings for grant shall be stayed unless the third party communicates to the European Patent Office in writing his consent to the continuation of such proceedings. Such consent shall be irrevocable. However, proceedings for grant shall not be stayed before the publication of the European patent application.

(2) Where evidence is provided that a final decision within the meaning of Article 61, paragraph 1, has been taken, the European Patent Office shall inform the applicant and any other party that the proceedings for grant shall be resumed as from the date stated in the communication, unless a new European patent application under Article 61, paragraph 1(b), has been filed for all the designated Contracting States. If the decision is in favour of the third party, the proceedings may not be resumed earlier than three months after the decision has become final, unless the third party requests the resumption.

(3) Upon staying the proceedings for grant, or thereafter, the European Patent Office may set a date on which it intends to resume the proceedings for grant, regardless of the stage reached in the national proceedings instituted under paragraph 1. It shall communicate this date to the third party, the applicant and any other party. If no evidence has been provided by that date that a final decision has been taken, the European Patent Office may resume proceedings.

(4) All periods other than those for the payment of renewal fees, running at the date of the stay of proceedings, shall be interrupted by such stay. The time which has not yet elapsed shall begin to run from the date on which proceedings are resumed. However, the time still to run after such resumption shall not be less than two months.

Rule 15

Limitation on withdrawals

From the date on which a third party provides evidence that he has instituted national proceedings under Rule 14, paragraph 1, and up to the date on which the proceedings for grant are resumed, neither the European patent application nor the designation of any Contracting State may be withdrawn.

Rule 16

Procedure under Article 61, paragraph 1

(1) A person entitled to the grant of a European patent may only avail himself of the remedies under Article 61, paragraph 1, if:

- (a) he does so no later than three months after the decision recognising his entitlement has become final, and
- (b) the European patent has not yet been granted.

(2) Such remedies shall only apply in respect of Contracting States designated in the European patent application in which the decision has been taken or recognised or must be recognised on the basis of the Protocol on Recognition.

Rule 17

Filing of a new European patent application by the entitled person

(1) Where the person adjudged by a final decision to be entitled to the grant of the European patent files

a new European patent application under Article 61, paragraph 1(b), the original application shall be deemed to be withdrawn on the date of filing the new application for the Contracting States designated therein in which the decision has been taken or recognised or must be recognised on the basis of the Protocol on Recognition.

(2) The filing fee and search fee shall be paid within one month of filing the new application. If the filing fee or search fee is not paid in due time, the application shall be deemed to be withdrawn.

(3) The designation fees shall be paid within six months of the date on which the European Patent Bulletin mentions the publication of the European search report drawn up in respect of the new application. Rule 39, paragraphs 2 and 3, shall apply.

Rule 18

Partial transfer of the right to the European patent

(1) If a final decision determines that a third party is entitled to the grant of a European patent in respect of only part of the subject-matter disclosed in the original European patent application, Article 61 and Rules 16 and 17 shall apply to such part.

(2) Where appropriate, the original European patent application shall contain, for the designated Contracting States in which the decision was taken or recognised or must be recognised on the basis of the Protocol on Recognition, claims, a description and drawings which are different from those for the other designated Contracting States.

CHAPTER II

MENTION OF THE INVENTOR

Rule 19

Designation of the inventor

(1) The request for grant of a European patent shall contain the designation of the inventor. However, if the applicant is not the inventor or is not the sole inventor, the designation shall be filed in a separate document. The designation shall state the family name, given names and full address of the inventor, contain the statement referred to in Article 81 and bear the signature of the applicant or his representative.

(2) The European Patent Office shall not verify the accuracy of the designation of the inventor.

(3) If the applicant is not the inventor or is not the sole inventor, the European Patent Office shall communicate to the designated inventor the information in the document designating him and the following data:

- (a) the number of the European patent application;
- (b) the date of filing of the European patent application and, if priority has been claimed, the date, State and file number of the previous application;
- (c) the name of the applicant;

- (d) the title of the invention;
- (e) the Contracting States designated.

(4) The applicant and the inventor may invoke neither the omission of the communication under paragraph 3 nor any errors contained therein.

Rule 20

Publication of the mention of the inventor

(1) The designated inventor shall be mentioned in the published European patent application and the European patent specification, unless he informs the European Patent Office in writing that he has waived his right to be thus mentioned.

(2) Paragraph 1 shall apply where a third party files with the European Patent Office a final decision determining that the applicant for or proprietor of a European patent is required to designate him as an inventor.

Rule 21

Rectification of the designation of an inventor

(1) An incorrect designation of an inventor shall be rectified upon request and only with the consent of the wrongly designated person and, where such a request is filed by a third party, the consent of the applicant for or proprietor of the patent. Rule 19 shall apply *mutatis mutandis*.

(2) Where an incorrect designation of the inventor has been recorded in the European Patent Register or published in the European Patent Bulletin, its rectification or cancellation shall also be recorded or published therein.

CHAPTER III REGISTRATION OF TRANSFERS, LICENCES AND OTHER RIGHTS

Rule 22

Registration of transfers

(1) The transfer of a European patent application shall be recorded in the European Patent Register at the request of an interested party, upon production of documents providing evidence of such transfer.

(2) The request shall not be deemed to have been filed until an administrative fee has been paid. It may be rejected only if paragraph 1 has not been complied with.

(3) A transfer shall have effect vis-à-vis the European Patent Office only at the date when and to the extent that the documents referred to in paragraph 1 have been produced.

Rule 23

Registration of licences and other rights

(1) Rule 22, paragraphs 1 and 2, shall apply *mutatis mutandis* to the registration of the grant or transfer of

a licence, the establishment or transfer of a right *in rem* in respect of a European patent application and any legal means of execution affecting such an application.

(2) A registration under paragraph 1 shall be cancelled upon request, supported by documents providing evidence that the right has lapsed, or by the written consent of the proprietor of the right to the cancellation of the registration. Rule 22, paragraph 2, shall apply *mutatis mutandis*.

Rule 24

Special entries for licence registrations

A licence in respect of a European patent application shall be recorded

- (a) as an exclusive licence if the applicant and the licensee so request;
- (b) as a sub-licence where it is granted by a licensee whose licence is recorded in the European Patent Register.

CHAPTER IV CERTIFICATE OF EXHIBITION

Rule 25

Certificate of exhibition

Within four months of filing the European patent application, the applicant shall file the certificate referred to in Article 55, paragraph 2, which:

- (a) is issued at the exhibition by the authority responsible for the protection of industrial property at that exhibition;
- (b) states that the invention was in fact displayed there;
- (c) states the opening date of the exhibition and, where the invention was disclosed later than on that date, the date on which the invention was first disclosed; and
- (d) is accompanied by an identification of the invention, duly authenticated by the above-mentioned authority.

CHAPTER V BIOTECHNOLOGICAL INVENTIONS

Rule 26

General and definitions

(1) For European patent applications and patents concerning biotechnological inventions, the relevant provisions of the Convention shall be applied and interpreted in accordance with the provisions of this Chapter. Directive 98/44/EC of 6 July 1998 on the legal protection of biotechnological inventions shall be used as a supplementary means of interpretation.

(2) "Biotechnological inventions" are inventions which concern a product consisting of or containing biological material or a process by means of which biological material is produced, processed or used.

(3) "Biological material" means any material containing genetic information and capable of

reproducing itself or being reproduced in a biological system.

(4) "Plant variety" means any plant grouping within a single botanical taxon of the lowest known rank, which grouping, irrespective of whether the conditions for the grant of a plant variety right are fully met, can be:

- (a) defined by the expression of the characteristics that results from a given genotype or combination of genotypes,
- (b) distinguished from any other plant grouping by the expression of at least one of the said characteristics, and
- (c) considered as a unit with regard to its suitability for being propagated unchanged.

(5) A process for the production of plants or animals is essentially biological if it consists entirely of natural phenomena such as crossing or selection.

(6) "Microbiological process" means any process involving or performed upon or resulting in microbiological material.

Rule 27

Patentable biotechnological inventions

Biotechnological inventions shall also be patentable if they concern:

- (a) biological material which is isolated from its natural environment or produced by means of a technical process even if it previously occurred in nature;
- (b) plants or animals if the technical feasibility of the invention is not confined to a particular plant or animal variety;
- (c) a microbiological or other technical process, or a product obtained by means of such a process other than a plant or animal variety.

Rule 28

Exceptions to patentability

Under Article 53(a), European patents shall not be granted in respect of biotechnological inventions which, in particular, concern the following:

- (a) processes for cloning human beings;
- (b) processes for modifying the germ line genetic identity of human beings;
- (c) uses of human embryos for industrial or commercial purposes;
- (d) processes for modifying the genetic identity of animals which are likely to cause them suffering without any substantial medical benefit to man or animal, and also animals resulting from such processes.

Rule 29

The human body and its elements

(1) The human body, at the various stages of its formation and development, and the simple discovery of one of its elements, including the sequence or partial

sequence of a gene, cannot constitute patentable inventions.

(2) An element isolated from the human body or otherwise produced by means of a technical process, including the sequence or partial sequence of a gene, may constitute a patentable invention, even if the structure of that element is identical to that of a natural element.

(3) The industrial application of a sequence or a partial sequence of a gene must be disclosed in the patent application.

Rule 30

Requirements of European patent applications relating to nucleotide and amino acid sequences

(1) If nucleotide or amino acid sequences are disclosed in the European patent application, the description shall contain a sequence listing conforming to the rules laid down by the President of the European Patent Office for the standardised representation of nucleotide and amino acid sequences.

(2) A sequence listing filed after the date of filing shall not form part of the description.

(3) Where the applicant has not filed a sequence listing complying with the requirements under paragraph 1 at the date of filing, the European Patent Office shall invite the applicant to furnish such a sequence listing and pay the late furnishing fee. If the applicant does not furnish the required sequence listing and pay the required late furnishing fee within a period of two months after such an invitation, the application shall be refused.

Rule 31

Deposit of biological material

(1) If an invention involves the use of or concerns biological material which is not available to the public and which cannot be described in the European patent application in such a manner as to enable the invention to be carried out by a person skilled in the art, the invention shall only be regarded as being disclosed as prescribed in Article 83 if:

- (a) a sample of the biological material has been deposited with a recognised depositary institution on the same terms as those laid down in the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure of 28 April 1977 not later than the date of filing of the application;
- (b) the application as filed gives such relevant information as is available to the applicant on the characteristics of the biological material;
- (c) the depositary institution and the accession number of the deposited biological material are stated in the application, and
- (d) where the biological material has been deposited by a person other than the applicant, the name and address of the depositor are stated in the application

and a document is submitted to the European Patent Office providing evidence that the depositor has authorised the applicant to refer to the deposited biological material in the application and has given his unreserved and irrevocable consent to the deposited material being made available to the public in accordance with Rule 33.

- (2) The information referred to in paragraph 1(c) and (d) may be submitted
- (a) within sixteen months after the date of filing of the application or, if priority has been claimed, after the priority date, this period being deemed to have been observed if the information is communicated before completion of the technical preparations for publication of the European patent application;
 - (b) up to the date of submission of a request under Article 93, paragraph 1(b);
 - (c) within one month after the European Patent Office has communicated to the applicant that the right to inspect the files under Article 128, paragraph 2, exists.

The ruling period shall be the one which is the first to expire. The communication of this information shall be considered as constituting the unreserved and irrevocable consent of the applicant to the deposited biological material being made available to the public in accordance with Rule 33.

Rule 32

Expert solution

- (1) Until completion of the technical preparations for publication of the European patent application, the applicant may inform the European Patent Office that,
- (a) until the publication of the mention of the grant of the European patent or, where applicable,
 - (b) for twenty years from the date of filing, if the application is refused or withdrawn or deemed to be withdrawn,
- the availability referred to in Rule 33 shall be effected only by the issue of a sample to an expert nominated by the requester.

- (2) The following may be nominated as an expert:
- (a) any natural person, provided that the requester furnishes evidence, when filing the request, that the nomination has the approval of the applicant;
 - (b) any natural person recognised as an expert by the President of the European Patent Office.

The nomination shall be accompanied by a declaration from the expert vis-à-vis the applicant in which he enters into the undertaking given under Rule 33 until either the date on which the patent expires in all the designated States or, where the application is refused, withdrawn or deemed to be withdrawn, the date referred to in paragraph 1(b), the requester being regarded as a third party.

Rule 33

Availability of biological material

- (1) Biological material deposited in accordance with

Rule 31 shall be available upon request to any person from the date of publication of the European patent application and to any person having the right to inspect the files under Article 128, paragraph 2, prior to that date. Subject to Rule 32, such availability shall be effected by the issue of a sample of the biological material to the person making the request (hereinafter referred to as "the requester").

(2) Said issue shall be made only if the requester has undertaken vis-à-vis the applicant for or proprietor of the patent not to make the biological material or any biological material derived therefrom available to any third party and to use that material for experimental purposes only, until such time as the patent application is refused or withdrawn or deemed to be withdrawn, or before the European patent has expired in all the designated States, unless the applicant for or proprietor of the patent expressly waives such an undertaking.

The undertaking to use the biological material for experimental purposes only shall not apply in so far as the requester is using that material under a compulsory licence. The term "compulsory licence" shall be construed as including ex officio licences and the right to use patented inventions in the public interest.

(3) For the purposes of paragraph 2, derived biological material shall mean any material which still exhibits those characteristics of the deposited material which are essential to carrying out the invention. The undertaking under paragraph 2 shall not impede any deposit of derived biological material necessary for the purpose of patent procedure.

(4) The request referred to in paragraph 1 shall be submitted to the European Patent Office on a form recognised by that Office. The European Patent Office shall certify on the form that a European patent application referring to the deposit of the biological material has been filed, and that the requester or the expert nominated by him under Rule 32 is entitled to the issue of a sample of that material. After grant of the European patent, the request shall also be submitted to the European Patent Office.

(5) The European Patent Office shall transmit a copy of the request, with the certification provided for in paragraph 4, to the depositary institution and to the applicant for or the proprietor of the patent.

(6) The European Patent Office shall publish in its Official Journal the list of depositary institutions and experts recognised for the purpose of Rules 31 to 34.

Rule 34

New deposit of biological material

If biological material deposited in accordance with Rule 31 ceases to be available from the recognised depositary institution, an interruption in availability shall be deemed not to have occurred if a new deposit of that material is made with a recognised depositary institution on the same terms as those laid down in the

Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure of 28 April 1977, and if a copy of the receipt of the new deposit issued by the depositary institution is forwarded to the European Patent Office within four months of the date of the new deposit, stating the number of the European patent application or of the European patent.

PART III
IMPLEMENTING REGULATIONS
TO PART III OF THE CONVENTION

CHAPTER I

(4) Upon receipt of a European patent application forwarded by the central industrial property office of a Contracting State, the European Patent Office shall inform the applicant accordingly, indicating the date of its receipt.

Rule 36

European divisional applications

(1) The applicant may file a divisional application relating to any pending earlier European patent application.

(2) A divisional application shall be in the language of the proceedings for the earlier application and shall be filed with the European Patent Office in Munich, The Hague or Berlin.

(3) The filing fee and search fee shall be paid within one month of filing the divisional application. If the filing fee or search fee is not paid in due time, the application shall be deemed to be withdrawn.

(4) The designation fees shall be paid within six months of the date on which the European Patent Bulletin mentions the publication of the European

search report drawn up in respect of the divisional application. Rule 39, paragraphs 2 and 3, shall apply.

Rule 37

Forwarding of European patent applications

(1) The central industrial property office of a Contracting State shall forward European patent applications to the European Patent Office in the shortest time compatible with its national law relating to the secrecy of inventions in the interests of the State, and shall take all appropriate steps to ensure such forwarding within:

- (a) six weeks of filing, where the subject of the application is evidently not liable to secrecy under the national law; or
- (b) four months of filing or, if priority has been claimed, fourteen months of the date of priority, where the application requires further examination as to its liability to secrecy.

(2) A European patent application not received by the European Patent Office within fourteen months of filing or, if priority has been claimed, of the date of priority, shall be deemed to be withdrawn. Any fees paid in respect of this application shall be refunded.

Rule 38

Filing fee and search fee

The filing fee and search fee shall be paid within one month of filing the European patent application.

Rule 39

Designation fees

(1) Designation fees shall be paid within six months of the date on which the European Patent Bulletin mentions the publication of the European search report.

(2) Where the designation fee is not paid in due time in respect of any Contracting State, the designation of that State shall be deemed to be withdrawn.

(3) Where no designation fee is paid in due time or the designations of all the Contracting States are withdrawn, the European patent application shall be deemed to be withdrawn.

(4) Without prejudice to Rule 37, paragraph 2, second sentence, designation fees shall not be refunded.

Rule 40

Date of filing

(1) The date of filing of a European patent application shall be the date on which the documents filed by the applicant contain:

- (a) an indication that a European patent is sought;
- (b) information identifying the applicant or allowing the applicant to be contacted; and
- (c) a description or reference to a previously filed application.

(2) A reference to a previously filed application under paragraph 1(c) shall state the filing date and number of that application and the Office with which it was filed. Such reference shall indicate that it replaces the description and any drawings.

(3) Where the application contains a reference under paragraph 2, a certified copy of the previously filed application shall be filed within two months of filing the application. Where the previously filed application is not in an official language of the European Patent Office, a translation thereof in one of these languages shall be filed within the same period. Rule 53, paragraph 2, shall apply *mutatis mutandis*.

CHAPTER II

PROVISIONS GOVERNING THE APPLICATION

Rule 41

Request for grant

(1) The request for grant of a European patent shall be filed on a form drawn up by the European Patent Office.

(2) The request shall contain:

- (a) a petition for the grant of a European patent;
- (b) the title of the invention, which shall clearly and concisely state the technical designation of the invention and shall exclude all fancy names;
- (c) the name, address and nationality of the applicant and the State in which his residence or principal place of business is located. Names of natural persons shall be indicated by the person's family name, followed by his given names. Names of legal persons, as well as of bodies equivalent to legal persons under the law governing them, shall be indicated by their official designations. Addresses shall be indicated in accordance with applicable customary requirements for prompt postal delivery and shall comprise all the relevant administrative units, including the house number, if any. It is recommended that the fax and telephone numbers be indicated;
- (d) if the applicant has appointed a representative, his name and the address of his place of business as prescribed in sub-paragraph (c);
- (e) where appropriate, an indication that the application constitutes a divisional application and the number of the earlier European patent application;
- (f) in cases covered by Article 61, paragraph 1(b), the number of the original European patent application;
- (g) where applicable, a declaration claiming the priority of an earlier application and indicating the date on which and the country in or for which the earlier application was filed;
- (h) the signature of the applicant or his representative;
- (i) a list of the documents accompanying the request. This list shall also indicate the number of sheets of the description, claims, drawings and abstract filed with the request;
- (j) the designation of the inventor, where the applicant is the inventor.

(3) If there is more than one applicant, the request shall preferably contain the appointment of one applicant or representative as common representative.

Rule 42

Content of the description

(1) The description shall:

- (a) specify the technical field to which the invention relates;
- (b) indicate the background art which, as far as is known to the applicant, can be regarded as useful to understand the invention, draw up the European search report and examine the European patent application, and, preferably, cite the documents reflecting such art;
- (c) disclose the invention, as claimed, in such terms that the technical problem, even if not expressly stated as such, and its solution can be understood, and state any advantageous effects of the invention with reference to the background art;
- (d) briefly describe the figures in the drawings, if any;
- (e) describe in detail at least one way of carrying out the invention claimed, using examples where appropriate and referring to the drawings, if any;
- (f) indicate explicitly, when it is not obvious from the description or nature of the invention, the way in which the invention is industrially applicable.

(2) The description shall be presented in the manner and order specified in paragraph 1, unless, owing to the nature of the invention, a different presentation would afford a better understanding or be more concise.

Rule 43

Form and content of claims

(1) The claims shall define the matter for which protection is sought in terms of the technical features of the invention. Wherever appropriate, claims shall contain:

- (a) a statement indicating the designation of the subject-matter of the invention and those technical features which are necessary for the definition of the claimed subject-matter but which, in combination, form part of the prior art;
- (b) a characterising portion, beginning with the expression "characterised in that" or "characterised by" and specifying the technical features for which, in combination with the features stated under sub-paragraph (a), protection is sought.

(2) Without prejudice to Article 82, a European patent application may contain more than one independent claim in the same category (product, process, apparatus or use) only if the subject-matter of the application involves one of the following:

- (a) a plurality of interrelated products,
- (b) different uses of a product or apparatus,
- (c) alternative solutions to a particular problem, where it is inappropriate to cover these alternatives by a single claim.

(3) Any claim stating the essential features of an invention may be followed by one or more claims concerning particular embodiments of that invention.

(4) Any claim which includes all the features of any other claim (dependent claim) shall contain, if possible at the beginning, a reference to the other claim and then state the additional features. A dependent claim directly referring to another dependent claim shall also be admissible. All dependent claims referring back to a single previous claim, and all dependent claims referring back to several previous claims, shall be grouped together to the extent and in the most appropriate way possible.

(5) The number of claims shall be reasonable with regard to the nature of the invention claimed. The claims shall be numbered consecutively in Arabic numerals.

(6) Except where absolutely necessary, claims shall not rely on references to the description or drawings in specifying the technical features of the invention. In particular, they shall not contain such expressions as "as described in part ... of the description", or "as illustrated in figure ... of the drawings".

(7) Where the European patent application contains drawings including reference signs, the technical features specified in the claims shall preferably be followed by such reference signs relating to these features, placed in parentheses, if the intelligibility of the claim can thereby be increased. These reference signs shall not be construed as limiting the claim.

Rule 44

Unity of invention

(1) Where a group of inventions is claimed in a European patent application, the requirement of unity of invention under Article 82 shall be fulfilled only when there is a technical relationship among those inventions involving one or more of the same or corresponding special technical features. The expression "special technical features" shall mean those features which define a contribution which each of the claimed inventions considered as a whole makes over the prior art.

(2) The determination whether a group of inventions is so linked as to form a single general inventive concept shall be made without regard to whether the inventions are claimed in separate claims or as alternatives within a single claim.

Rule 45

Claims incurring fees

(1) Any European patent application comprising more than ten claims shall, in respect of the eleventh and each subsequent claim, incur payment of a claims fee.

(2) The claims fees shall be paid within one month of filing the first set of claims. If the claims fees have not been paid in due time, they may still be paid within one

month of a communication concerning the failure to observe the time limit.

(3) If a claims fee is not paid in due time, the claim concerned shall be deemed to be abandoned.

Rule 46

Form of the drawings

(1) On sheets containing drawings, the usable surface area shall not exceed 26.2 cm x 17 cm. The usable or used surface shall not be surrounded by frames. The minimum margins shall be as follows:

top	2.5 cm
left side	2.5 cm
right side	1.5 cm
bottom	1 cm

(2) Drawings shall be executed as follows:

- (a) Drawings shall be executed without colourings in durable, black, sufficiently dense and dark, uniformly thick and well-defined lines and strokes.
- (b) Cross-sections shall be indicated by hatching which should not impede the clear reading of the reference signs and leading lines.
- (c) The scale of the drawings and their graphical execution shall be such that electronic or photographic reproduction with a linear reduction in size to two-thirds will allow all details to be distinguished without difficulty. If, exceptionally, the scale is given on a drawing, it shall be represented graphically.
- (d) All numbers, letters, and reference signs appearing on the drawings shall be simple and clear. Brackets, circles or inverted commas shall not be used in association with numbers and letters.
- (e) Generally, all lines in the drawings shall be drawn with the aid of drafting instruments.
- (f) Elements of the same figure shall be proportional to one another, unless a difference in proportion is indispensable for the clarity of the figure.
- (g) The height of the numbers and letters shall not be less than 0.32 cm. For the lettering of drawings, the Latin and, where customary, the Greek alphabets shall be used.
- (h) The same sheet of drawings may contain several figures. Where figures drawn on two or more sheets are intended to form a single figure, the figures on the several sheets shall be so arranged that the whole figure can be assembled without concealing any part of the partial figures. The different figures shall be arranged without wasting space, preferably in an upright position, clearly separated from one another. Where the figures are not arranged in an upright position, they shall be presented sideways with the top of the figures at the left side of the sheet. The different figures shall be numbered consecutively in Arabic numerals, independently of the numbering of the sheets.
- (i) Reference signs not mentioned in the description and claims shall not appear in the drawings, and vice versa. Reference signs to features shall be consistent throughout the application.

(j) The drawings shall not contain text matter. Where indispensable to understand the drawings, a few short keywords, such as “water”, “steam”, “open”, “closed” or “section on AB”, may be included. Any such keywords shall be placed in such a way that, if required, they can be replaced by their translations without interfering with any lines of the drawings.

(3) Flow sheets and diagrams shall be deemed to be drawings.

Rule 47

Form and content of the abstract

(1) The abstract shall indicate the title of the invention.

(2) The abstract shall contain a concise summary of the disclosure as contained in the description, the claims and any drawings. The summary shall indicate the technical field to which the invention pertains, and shall be drafted in a manner allowing the clear understanding of the technical problem, the gist of the solution of that problem through the invention, and the principal use or uses of the invention. The abstract shall, where applicable, contain the chemical formula which, among those contained in the application, best characterises the invention. It shall not contain statements on the alleged merits or value of the invention or on speculative applications thereof.

(3) The abstract shall preferably not contain more than one hundred and fifty words.

(4) If the European patent application contains drawings, the applicant shall indicate the figure or, exceptionally, the figures of the drawings which should be published with the abstract. The European Patent Office may decide to publish one or more other figures if it considers that they better characterise the invention. Each essential feature mentioned in the abstract and illustrated by a drawing shall be followed by a reference sign placed in parentheses.

(5) The abstract shall be drafted in such a manner as to constitute an efficient instrument for the purpose of searching in the particular technical field. In particular, it shall make it possible to assess whether consultation of the European patent application itself is necessary.

Rule 48

Prohibited matter

(1) The European patent application shall not contain:

- (a) statements or other matter contrary to “ordre public” or morality;
- (b) statements disparaging the products or processes of any third party or the merits or validity of the applications or patents of any such party. Mere comparisons with the prior art shall not be considered disparaging *per se*;
- (c) any statement or other matter obviously irrelevant or unnecessary under the circumstances.

(2) If the application contains matter prohibited under paragraph 1(a), the European Patent Office may omit such matter from the application as published, indicating the place and number of words or drawings omitted.

(3) If the application contains statements referred to in paragraph 1(b), the European Patent Office may omit them from the application as published, indicating the place and number of words omitted. Upon request, the European Patent Office shall furnish a copy of the passages omitted.

Rule 49

General provisions governing the presentation of the application documents

(1) Any translation filed under Article 14, paragraph 2, or Rule 40, paragraph 3, shall be deemed to be a document making up the European patent application.

(2) The documents making up the application shall be presented so as to allow electronic and direct reproduction, in particular by scanning, photography, electrostatic processes, photo offset and microfilming, in an unlimited number of copies. All sheets shall be free from cracks, creases and folds. Only one side of the sheet shall be used.

(3) The documents making up the application shall be on A4 paper (29.7 cm x 21 cm) which shall be pliable, strong, white, smooth, matt and durable. Subject to paragraph 10 and Rule 46, paragraph 2(h), each sheet shall be used with its short sides at the top and bottom (upright position).

(4) Each of the documents making up the application (request, description, claims, drawings and abstract) shall commence on a new sheet. The sheets shall be connected in such a way that they can easily be turned over, separated and joined together again.

(5) Subject to Rule 46, paragraph 1, the minimum margins shall be as follows:

top:	2 cm
left side:	2.5 cm
right side:	2 cm
bottom:	2 cm

The recommended maximum for the margins quoted above is as follows:

top:	4 cm
left side:	4 cm
right side:	3 cm
bottom:	3 cm

(6) All the sheets contained in the application shall be numbered in consecutive Arabic numerals. These shall be centred at the top of the sheet, but not placed in the top margin.

(7) The lines of each sheet of the description and of the claims shall preferably be numbered in sets of five, the numbers appearing on the left side, to the right of the margin.

CHAPTER III
RENEWAL FEES

Rule 51

Payment of renewal fees

(8) The request for grant of a European patent, the description, the claims and the abstract shall be typed or printed. Only graphic symbols and characters and chemical or mathematical formulae may, if necessary, be drawn or written by hand. The typing shall be 1" spaced. All text matter shall be in characters, the capital letters of which are not less than 0.21 cm high, and shall be in a dark, indelible colour.

(9) The request for grant of a European patent, the description, the claims and the abstract shall not contain drawings. The description, claims and abstract may contain chemical or mathematical formulae. The description and abstract may contain tables. The claims may contain tables only if their subject-matter makes the use of tables desirable. Tables and chemical or mathematical formulae may be placed sideways on the sheet if they cannot be presented satisfactorily in an upright position. Tables or chemical or mathematical formulae presented sideways shall be placed so that the tops of the tables or formulae are at the left-hand side of the sheet.

(10) Values shall be expressed in units conforming to international standards, wherever appropriate in terms of the metric system using SI units. Any data not meeting this requirement shall also be expressed in units conforming to international standards. Only the technical terms, conventions, formulae, signs and symbols generally accepted in the field in question shall be used.

(11) The terminology and the signs shall be consistent throughout the European patent application.

(12) Each sheet shall be reasonably free from erasures and shall be free from alterations. Non-compliance with this rule may be authorised if the authenticity of the content is not impugned and the requirements for good reproduction are not thereby jeopardised.

Rule 50

Documents filed subsequently

(1) Rules 42, 43 and 46 to 49 shall apply to documents replacing documents making up the European patent application. Rule 49, paragraphs 2 to 12, shall also apply to the translation of the claims referred to in Rule 71.

(2) All documents other than those making up the application shall generally be typewritten or printed. There shall be a margin of about 2.5 cm on the left-hand side of each page.

(3) Documents filed after filing the application shall be signed, with the exception of annexed documents. If a document has not been signed, the European Patent Office shall invite the party concerned to do so within a time limit to be specified. If signed in due time, the document shall retain its original date of receipt; otherwise it shall be deemed not to have been filed.

(1) A renewal fee for the European patent application in respect of the coming year shall be due on the last day of the month containing the anniversary of the date of filing of the European patent application. Renewal fees may not be validly paid more than one year before they fall due.

(2) If a renewal fee is not paid in due time, the fee may still be paid within six months of the due date, provided that an additional fee is also paid within that period.

(3) Renewal fees already due in respect of an earlier application at the date on which a divisional application is filed shall also be paid for the divisional application and shall be due on its filing. These fees and any renewal fee due within four months of filing the divisional application may be paid within that period without an additional fee. Paragraph 2 shall apply.

(4) If a European patent application has been refused or deemed to be withdrawn as a result of non-observance of a time limit, and if the applicant's rights are re-established under Article 122, a renewal fee

(a) which would have fallen due under paragraph 1 in the period starting on the date on which the loss of rights occurred, up to and including the date of the notification of the decision re-establishing the rights shall be due on that latter date.

This fee and any renewal fee due within four months from that latter date may still be paid within four months of that latter date without an additional fee. Paragraph 2 shall apply.

(b) which, on the date on which the loss of rights has occurred, was already due but the period provided for in paragraph 2 has not yet expired, may still be paid within six months from the date of the notification of the decision re-establishing the rights, provided that the additional fee pursuant to paragraph 2 is also paid within that period.

(5) If the Enlarged Board of Appeal re-opens proceedings before the Board of Appeal under Article 112a, paragraph 5, second sentence, a renewal fee

(a) which would have fallen due under paragraph 1 in the period starting on the date when the decision of the Board of Appeal subject to the petition for review was taken, up to and including the date of the notification of the decision of the Enlarged Board of Appeal re-opening proceedings before the Board of Appeal, shall be due on that latter date.

This fee and any renewal fee due within four months from that latter date may still be paid within four months of that latter date without an additional fee. Paragraph 2 shall apply.

(b) which, on the day on which the decision of the Board

of Appeal was taken, was already due but the period provided for in paragraph 2 has not yet expired, may still be paid within six months from the date of the notification of the decision of the Enlarged Board of Appeal re-opening proceedings before the Board of Appeal, provided that the additional fee pursuant to paragraph 2 is also paid within that period.

(6) A renewal fee shall not be payable for a new European patent application filed under Article 61, paragraph 1(b), in respect of the year in which it was filed and any preceding year.

CHAPTER IV PRIORITY

Rule 52 Declaration of priority

(1) The declaration of priority referred to in Article 88, paragraph 1, shall indicate the date of the previous filing, the State party to the Paris Convention or Member of the World Trade Organization in or for which it was made and the file number. In the case referred to in Article 87, paragraph 5, the first sentence shall apply *mutatis mutandis*.

(2) The declaration of priority shall preferably be made on filing the European patent application. It may still be made within sixteen months from the earliest priority date claimed.

(3) The applicant may correct the declaration of priority within sixteen months from the earliest priority date claimed, or, where the correction would cause a change in the earliest priority date claimed, within sixteen months from the corrected earliest priority date, whichever sixteen-month period expires first, provided that such a correction may be submitted until the expiry of four months from the date of filing accorded to the European patent application.

(4) However, a declaration of priority may not be made or corrected after a request under Article 93, paragraph 1(b), has been filed.

(5) The particulars of the declaration of priority shall appear in the published European patent application and the European patent specification.

Rule 53 Priority documents

(1) An applicant claiming priority shall file a copy of the previous application within sixteen months of the earliest priority date claimed. This copy and the date of filing of the previous application shall be certified as correct by the authority with which that application was filed.

(2) The copy of the previous application shall be deemed to be duly filed if a copy of that application available to the European Patent Office is to be included in the file of the European patent application under the conditions determined by the President of the European Patent Office.

(3) Where the previous application is not in an official language of the European Patent Office and the validity of the priority claim is relevant to the determination of the patentability of the invention concerned, the European Patent Office shall invite the applicant for or proprietor of the European patent to file a translation of that application into one of the official languages within a period to be specified. Alternatively, a declaration may be submitted that the European patent application is a complete translation of the previous application. Paragraph 2 shall apply *mutatis mutandis*.

Rule 54 Issuing priority documents

On request, the European Patent Office shall issue to the applicant a certified copy of the European patent application (priority document), under the conditions determined by the President of the European Patent Office, including the form of the priority document and the circumstances under which an administrative fee shall be paid.

PART IV IMPLEMENTING REGULATIONS TO PART IV OF THE CONVENTION

CHAPTER I EXAMINATION BY THE RECEIVING SECTION

Rule 55 Examination on filing

If the examination under Article 90, paragraph 1, reveals that the application fails to meet the requirements laid down in Rule 40, paragraph 1(a) or (c), paragraph 2 or paragraph 3, first sentence, the European Patent Office shall inform the applicant of any deficiencies and advise him that the application will not be dealt with as a European patent application unless such deficiencies are remedied within two months. If the applicant does this, he shall be informed of the date of filing accorded by the Office.

Rule 56 Missing parts of the description or missing drawings

(1) If the examination under Article 90, paragraph 1, reveals that parts of the description, or drawings referred to in the description or in the claims, appear to be missing, the European Patent Office shall invite the applicant to file the missing parts within two months. The applicant may not invoke the omission of such a communication.

(2) If missing parts of the description or missing drawings are filed later than the date of filing, but within two months of the date of filing or, if a communication is issued under paragraph 1, within two months of that communication, the application

shall be re-dated to the date on which the missing parts of the description or missing drawings were filed. The European Patent Office shall inform the applicant accordingly.

(3) If the missing parts of the description or missing drawings are filed within the period under paragraph 2, and the application claims priority of an earlier application, the date of filing shall, provided that the missing parts of the description or the missing drawings are completely contained in the earlier application, remain the date on which the requirements laid down in Rule 40, paragraph 1, were fulfilled, where the applicant so requests and files, within the period under paragraph 2:

- (a) a copy of the earlier application, unless such copy is available to the European Patent Office under Rule 53, paragraph 2;
- (b) where the earlier application is not in an official language of the European Patent Office, a translation thereof in one of these languages, unless such copy is available to the European Patent Office under Rule 53, paragraph 3; and
- (c) an indication as to where the missing parts of the description or the missing drawings are completely contained in the earlier application and, where applicable, in the translation thereof.

(4) If the applicant:

- (a) fails to file the missing parts of the description or the missing drawings within the period under paragraph 1 or 2, or
- (b) withdraws under paragraph 6 any missing part of the description or missing drawing filed under paragraph 2, any references referred to in paragraph 1 shall be deemed to be deleted, and any filing of the missing parts of the description or missing drawings shall be deemed not to have been made. The European Patent Office shall inform the applicant accordingly.

(5) If the applicant fails to comply with the requirements referred to in paragraph 3(a) to (c) within the period under paragraph 2, the application shall be re-dated to the date on which the missing parts of the description or missing drawings were filed. The European Patent Office shall inform the applicant accordingly.

(6) Within one month of the notification referred to in paragraph 2 or 5, last sentence, the applicant may withdraw the missing parts of the description or the missing drawings filed, in which case the re-dating shall be deemed not to have been made. The European Patent Office shall inform the applicant accordingly.

Rule 57

Examination as to formal requirements

If the European patent application has been accorded a date of filing, the European Patent Office shall examine, in accordance with Article 90, paragraph 3, whether:

- (a) a translation of the application required under Article 14, paragraph 2, or under Rule 40,

paragraph 3, second sentence, has been filed in due time;

- (b) the request for grant of a European patent satisfies the requirements of Rule 41;
- (c) the application contains one or more claims in accordance with Article 78, paragraph 1(c), or a reference to a previously filed application in accordance with Rule 40, paragraphs 1(c), 2 and 3, indicating that it replaces also the claims;
- (d) the application contains an abstract in accordance with Article 78, paragraph 1(e);
- (e) the filing fee and the search fee have been paid in accordance with Rule 17, paragraph 2, Rule 36, paragraph 3, or Rule 38;
- (f) the designation of the inventor has been made in accordance with Rule 19, paragraph 1;
- (g) where appropriate, the requirements laid down in Rules 52 and 53 concerning the claim to priority have been satisfied;
- (h) where appropriate, the requirements of Article 133, paragraph 2, have been satisfied;
- (i) the application meets the requirements laid down in Rule 46 and Rule 49, paragraphs 1 to 9 and 12;
- (j) the application meets the requirements laid down in Rule 30 or Rule 163, paragraph 3.

Rule 58

Correction of deficiencies in the application documents

If the European patent application does not comply with the requirements of Rule 57(a) to (d), (h) and (i), the European Patent Office shall inform the applicant accordingly and invite him to correct the deficiencies noted within two months. The description, claims and drawings may be amended only to an extent sufficient to remedy such deficiencies.

Rule 59

Deficiencies in claiming priority

If the file number of the previous application under Rule 52, paragraph 1, or the copy of that application under Rule 53, paragraph 1, have not been filed in due time, the European Patent Office shall inform the applicant accordingly and invite him to file them within a period to be specified.

Rule 60

Subsequent designation of the inventor

(1) If the designation of the inventor has not been made in accordance with Rule 19, the European Patent Office shall inform the applicant that the European patent application will be refused unless the designation is made within sixteen months of the date of filing of the application or, if priority is claimed, of the date of priority, this period being deemed to have been observed if the information is communicated before completion of the technical preparations for the publication of the European patent application.

- (2) Where, in a divisional application or a new

application under Article 61, paragraph 1(b), the designation of the inventor has not been made in accordance with Rule 19, the European Patent Office shall invite the applicant to make the designation within a period to be specified.

CHAPTER II EUROPEAN SEARCH REPORT

Rule 61

Content of the European search report

(1) The European search report shall mention those documents, available to the European Patent Office at the time of drawing up the report, which may be taken into consideration in deciding whether the invention to which the European patent application relates is new and involves an inventive step.

(2) Each citation shall be referred to the claims to which it relates. Where appropriate, relevant parts of the documents cited shall be identified.

(3) The European search report shall distinguish between cited documents published before the date of priority claimed, between such date of priority and the date of filing, and on or after the date of filing.

(4) Any document which refers to an oral disclosure, a use or any other means of disclosure which took place before the date of filing of the European patent application shall be mentioned in the European search report, together with an indication of the date of publication, if any, of the document and the date of the non-written disclosure.

(5) The European search report shall be drawn up in the language of the proceedings.

(6) The European search report shall contain the classification of the subject-matter of the European patent application in accordance with the international classification.

Rule 62

Extended European search report

(1) The European search report shall be accompanied by an opinion on whether the application and the invention to which it relates seem to meet the requirements of this Convention, unless a communication under Rule 71, paragraph 1 or 3, can be issued.

(2) The opinion under paragraph 1 shall not be published together with the search report.

Rule 63

Incomplete search

If the European Patent Office considers that the European patent application does not comply with this Convention to such an extent that it is impossible to carry out a meaningful search into the state of the art on the basis of all or some of the subject-matter claimed, it shall either issue a reasoned declaration to

that effect or, as far as is practicable, draw up a partial search report. The declaration or the partial report shall be considered, for the purposes of subsequent proceedings, as the European search report.

Rule 64

European search report where the invention lacks unity

(1) If the European Patent Office considers that the European patent application does not comply with the requirement of unity of invention, it shall draw up a partial search report on those parts of the application which relate to the invention, or the group of inventions within the meaning of Article 82, first mentioned in the claims. It shall inform the applicant that for the European search report to cover the other inventions, a further search fee must be paid, in respect of each invention involved, within a period to be specified, which shall neither be shorter than two weeks nor exceed six weeks. The European search report shall be drawn up for the parts of the application relating to inventions in respect of which search fees have been paid.

(2) Any fee paid under paragraph 1 shall be refunded if, during the examination of the European patent application, the applicant requests a refund and the Examining Division finds that the communication under paragraph 1 was not justified.

Rule 65

Transmittal of the European search report

Immediately after it has been drawn up, the European search report shall be transmitted to the applicant together with copies of any cited documents.

Rule 66

Definitive content of the abstract

Upon drawing up the European search report, the European Patent Office shall determine the definitive content of the abstract and transmit it to the applicant together with the search report.

CHAPTER III

PUBLICATION OF THE EUROPEAN PATENT APPLICATION

Rule 67

Technical preparations for publication

(1) The President of the European Patent Office shall determine when the technical preparations for publication of the European patent application are deemed to have been completed.

(2) The application shall not be published if it has been finally refused or withdrawn or is deemed to be withdrawn before the termination of the technical preparations for publication.

Rule 68

Form of the publication of European patent applications and European search reports

(1) The publication of the European patent application shall contain the description, the claims and any drawings as filed, and the abstract, or, if these documents making up the application were not filed in an official language of the European Patent Office, a translation in the language of the proceedings, and, in an annex, the European search report, where it is available before the termination of the technical preparations for publication. If the search report or the abstract is not published at the same time as the application, it shall be published separately.

(2) The President of the European Patent Office shall determine the form of the publication of the application and the data to be included. The same shall apply where the European search report and the abstract are published separately.

(3) The designated Contracting States shall be indicated in the published application.

(4) If the patent claims were not filed on the date of filing of the application, this shall be indicated when the application is published. If, before the termination of the technical preparations for publication of the application, the claims have been amended under Rule 137, paragraph 2, the new or amended claims shall be included in the publication in addition to the claims as filed.

Rule 69

Information about publication

(1) The European Patent Office shall inform the applicant of the date on which the European Patent Bulletin mentions the publication of the European search report and shall draw his attention to Rule 70, paragraph 1, and Article 94, paragraph 2.

(2) The applicant may not invoke the omission of the communication under paragraph 1. If a later date of publication is specified in the communication, that later date shall be the decisive date as regards the period for filing the request for examination, unless the error is obvious.

Rule 70

Request for examination

(1) The applicant may request examination of the European patent application up to six months after the date on which the European Patent Bulletin mentions the publication of the European search report. The request may not be withdrawn.

(2) If the request for examination has been filed before the European search report has been transmitted to the applicant, the European Patent Office shall invite the applicant to indicate, within a period to be specified, whether he wishes to proceed further with the application, and shall give him the

opportunity to comment on the search report and to amend, where appropriate, the description, claims and drawings.

(3) If the applicant fails to reply in due time to the invitation under paragraph 2, the application shall be deemed to be withdrawn.

CHAPTER IV

EXAMINATION BY THE EXAMINING DIVISION

Rule 71

Examination procedure

(1) In any communication under Article 94, paragraph 3, the Examining Division shall, where appropriate, invite the applicant to correct any deficiencies noted and to amend the description, claims and drawings within a period to be specified.

(2) Any communication under Article 94, paragraph 3, shall contain a reasoned statement covering, where appropriate, all the grounds against the grant of the European patent.

(3) Before the Examining Division decides to grant the European patent, it shall inform the applicant of the text in which it intends to grant it, and shall invite him to pay the fees for grant and printing and to file a translation of the claims in the two official languages of the European Patent Office other than the language of the proceedings within a period of four months. If the applicant pays the fees and files the translation within this period, he shall be deemed to have approved the text intended for grant.

(4) If the applicant, within the period laid down in paragraph 3, requests amendments under Rule 137, paragraph 3, or the correction of errors under Rule 139, he shall, where the claims are amended or corrected, file a translation of the claims as amended or corrected. If the applicant pays the fees and files the translation within this period, he shall be deemed to have approved the grant of the patent as amended or corrected.

(5) If the Examining Division does not consent to an amendment or correction requested under paragraph 4, it shall, before taking a decision, give the applicant an opportunity to submit, within a period to be specified, his observations and any amendments considered necessary by the Examining Division, and, where the claims are amended, a translation of the claims as amended. If the applicant submits such amendments, he shall be deemed to have approved the grant of the patent as amended. If the European patent application is refused, withdrawn or deemed to be withdrawn, the fees for grant and printing, and any claims fees paid under paragraph 6, shall be refunded.

(6) If the European patent application in the text intended for grant comprises more than ten claims, the Examining Division shall invite the applicant to pay claims fees in respect of each additional claim within the period under paragraph 3, and, where applicable,

paragraph 5, unless the said fees have already been paid under Rule 45 or Rule 162.

(7) If the fees for grant and printing or the claims fees are not paid in due time, or if the translation is not filed in due time, the European patent application shall be deemed to be withdrawn.

(8) If the designation fees become due after the communication under paragraph 3, the mention of the grant of the European patent shall not be published until the designation fees have been paid. The applicant shall be informed accordingly.

(9) If a renewal fee becomes due after the communication under paragraph 3 and before the next possible date for publication of the mention of the grant of the European patent, the mention shall not be published until the renewal fee has been paid. The applicant shall be informed accordingly.

(10) The communication under paragraph 3 shall indicate the designated Contracting States which require a translation under Article 65, paragraph 1.

(11) The decision to grant the European patent shall state which text of the European patent application forms the basis for the decision.

determine the circumstances in which an administrative fee is payable.

PART V

IMPLEMENTING REGULATIONS TO PART V OF THE CONVENTION

CHAPTER I

OPPOSITION PROCEDURE

Rule 75

Surrender or lapse of the patent

An opposition may be filed even if the European patent has been surrendered in all the designated Contracting States or has lapsed in all those States.

Rule 76

Form and content of the opposition

(1) Notice of opposition shall be filed in a written reasoned statement.

(2) The notice of opposition shall contain:

- (b) the number of the European patent against which opposition is filed, the name of the proprietor of the patent and the title of the invention;
- (c) a statement of the extent to which the European patent is opposed and of the grounds on which the opposition is based, as well as an indication of the facts and evidence presented in support of these grounds;
- (d) if the opponent has appointed a representative, particulars as provided in Rule 41, paragraph 2(d).

(3) Part III of the Implementing Regulations shall apply *mutatis mutandis* to the notice of opposition.

Rule 77

Rejection of the opposition as inadmissible

(1) If the Opposition Division notes that the notice of opposition does not comply with the provisions of Article 99, paragraph 1, or Rule 76, paragraph 2(c), or does not sufficiently identify the patent against which opposition has been filed, it shall reject the opposition as inadmissible, unless these deficiencies have been remedied before expiry of the opposition period.

(2) If the Opposition Division notes that the notice of opposition does not comply with provisions other than those referred to in paragraph 1, it shall communicate this to the opponent and shall invite him to remedy the deficiencies noted within a period to be specified. If the deficiencies are not remedied in due time, the Opposition Division shall reject the opposition as inadmissible.

(3) The decision to reject an opposition as inadmissible shall be communicated to the proprietor of the patent, together with a copy of the notice of opposition.

Rule 78

Procedure where the proprietor of the patent is not entitled

(1) If a third party provides evidence, during opposition proceedings or during the opposition period, that he has instituted proceedings against the proprietor of the European patent, seeking a decision within the meaning of Article 61, paragraph 1, opposition proceedings shall be stayed unless the third party communicates to the European Patent Office in writing his consent to the continuation of such proceedings. Such consent shall be irrevocable. However, proceedings shall not be stayed until the Opposition Division has deemed the opposition admissible. Rule 14, paragraphs 2 to 4, shall apply *mutatis mutandis*.

(2) Where a third party has, in accordance with Article 99, paragraph 4, replaced the previous proprietor for one or some of the designated Contracting States, the patent as maintained in opposition proceedings may, for these States, contain claims, a description and drawings different from those for the other designated States.

Rule 79

Preparation of the examination of the opposition

(1) The Opposition Division shall communicate the notice of opposition to the proprietor of the patent and shall give him the opportunity to file his observations and to amend, where appropriate, the description, claims and drawings within a period to be specified.

(2) If several notices of opposition have been filed, the Opposition Division shall communicate them to the other opponents at the same time as the communication under paragraph 1.

(3) The Opposition Division shall communicate any observations and amendments filed by the proprietor of the patent to the other parties, and shall invite them, if it considers this expedient, to reply within a period to be specified.

(4) In the case of an intervention under Article 105, the Opposition Division may dispense with the application of paragraphs 1 to 3.

Rule 80

Amendment of the European patent

Without prejudice to Rule 138, the description, claims and drawings may be amended, provided that the amendments are occasioned by a ground for opposition under Article 100, even if that ground has not been invoked by the opponent.

Rule 81

Examination of opposition

(1) The Opposition Division shall examine those

grounds for opposition which are invoked in the opponent's statement under Rule 76, paragraph 2(c). Grounds for opposition not invoked by the opponent may be examined by the Opposition Division of its own motion if they would prejudice the maintenance of the European patent.

(2) Communications under Article 101, paragraph 1, second sentence, and all replies thereto shall be sent to all parties. If the opposition division considers this expedient, it shall invite the parties to reply within a period to be specified.

(3) In any communication under Article 101, paragraph 1, second sentence, the proprietor of the European patent shall, where necessary, be given the opportunity to amend, where appropriate, the description, claims and drawings. Where necessary, the communication shall contain a reasoned statement covering the grounds against the maintenance of the European patent.

Rule 82

Maintenance of the European patent in amended form

(1) Before the Opposition Division decides to maintain the European patent as amended, it shall inform the parties of the text in which it intends to maintain the patent, and shall invite them to file their observations within two months if they disapprove of that text.

(2) If a party disapproves of the text communicated by the Opposition Division, examination of the opposition may be continued. Otherwise, the Opposition Division shall, on expiry of the period under paragraph 1, invite the proprietor of the patent to pay the prescribed fee and to file a translation of any amended claims in the official languages of the European Patent Office other than the language of the proceedings, within a period of three months. This invitation shall indicate the designated Contracting States which require a translation under Article 65, paragraph 1.

(3) If the acts required under paragraph 2 are not performed in due time, they may still be performed within two months of a communication concerning the failure to observe the time limit, provided that a surcharge is paid within this period. Otherwise, the patent shall be revoked.

(4) The decision to maintain the European patent as amended shall state which text of the patent forms the basis for the decision.

Rule 83

Request for documents

Documents referred to by a party to opposition proceedings shall be filed together with the notice of opposition or the written submissions. If such documents are neither enclosed nor filed in due time

upon invitation by the European Patent Office, it may decide not to take into account any arguments based on them.

Rule 84

Continuation of the opposition proceedings by the European Patent Office of its own motion

(1) If the European patent has been surrendered in all the designated Contracting States or has lapsed in all those States, the opposition proceedings may be continued at the request of the opponent filed within two months of a communication from the European Patent Office informing him of the surrender or lapse.

(2) In the event of the death or legal incapacity of an opponent, the opposition proceedings may be continued by the European Patent Office of its own motion, even without the participation of the heirs or legal representatives. The same shall apply where the opposition is withdrawn.

Rule 85

Transfer of the European patent

Rule 22 shall apply to any transfer of the European patent made during the opposition period or during opposition proceedings.

(2) The Opposition Division shall, on request, fix the amount of costs to be paid under a final decision apportioning them. A bill of costs, with supporting evidence, shall be attached to the request. Costs may be fixed once their credibility is established.

(3) A request for a decision by the Opposition Division may be filed within one month of the communication on the fixing of costs under paragraph 2. The request shall be filed in writing and state the grounds on which it is based. It shall not be deemed to be filed until the prescribed fee has been paid.

(4) The Opposition Division shall decide on the request under paragraph 3 without oral proceedings.

Rule 89

Intervention of the assumed infringer

(1) Notice of intervention shall be filed within three months of the date on which proceedings referred to in Article 105 are instituted.

(2) Notice of intervention shall be filed in a written reasoned statement; Rules 76 and 77 shall apply *mutatis mutandis*. The notice of intervention shall not be deemed to have been filed until the opposition fee has been paid.

 - (e) where the requester has appointed a representative, particulars as provided in Rule 41, paragraph 2(d).

Rule 93

Precedence of opposition proceedings

(1) The request for limitation or revocation shall be deemed not to have been filed if opposition proceedings in respect of the patent are pending at the time of filing the request.

(2) If, at the time of filing an opposition to a European patent, limitation proceedings in respect of that patent are pending, the Examining Division shall terminate the limitation proceedings and order the reimbursement of the limitation fee. The reimbursement shall also be ordered in respect of the fee referred to in Rule 95, paragraph 3, first sentence, if the requester has already paid this fee.

Rule 94

Rejection of the request as inadmissible

If the Examining Division finds that the request for limitation or revocation fails to comply with the requirements of Rule 92, it shall invite the requester to correct the deficiencies noted, within a period to be specified. If the deficiencies are not corrected in due time, the Examining Division shall reject the request as inadmissible.

Rule 95

Decision on the request

(1) If a request for revocation is admissible, the Examining Division shall revoke the patent and communicate this to the requester.

(2) If a request for limitation is admissible, the Examining Division shall examine whether the amended claims constitute a limitation vis-à-vis the claims as granted or amended in opposition or limitation proceedings and comply with Article 84 and Article 123, paragraphs 2 and 3. If the request does not comply with these requirements, the Examining Division shall give the requester one opportunity to correct any deficiencies noted, and to amend the claims and, where appropriate, the description and drawings, within a period to be specified.

(3) If a request for limitation is allowable under

paragraph 2, the Examining Division shall communicate this to the requester and invite him to pay the prescribed fee and to file a translation of the amended claims in the official languages of the European Patent Office other than the language of the proceedings, within a period of three months; Rule 82, paragraph 3, first sentence, shall apply *mutatis mutandis*. If the requester performs these acts in due time, the Examining Division shall limit the patent.

(4) If the requester does not respond in due time to the communication issued under paragraph 2, or if the request for limitation is not allowable, or if the requester fails to perform the acts required under paragraph 3 in due time, the Examining Division shall reject the request

(1) If the appeal does not comply with Articles 106 to 108, Rule 97 or Rule 99, paragraph 1(b) or (c) or paragraph 2, the Board of Appeal shall reject it as inadmissible, unless any deficiency has been remedied before the relevant period under Article 108 has expired.

Rule 105

Criminal acts

A petition for review may be based on Article 112a, paragraph 2(e), if a competent court or authority has finally established that the criminal act occurred; a conviction is not necessary.

Rule 106

(2) If the party concerned considers that the finding of the European Patent Office is inaccurate, it may, within two months of the communication under paragraph 1, apply for a decision on the matter. Rule 116

Preparation of oral proceedings

(1) When issuing the summons, the European Patent Office shall draw attention to the points which in its opinion need to be discussed for the purposes of the decision to be taken. At the same time a final date for making written submissions in preparation for the oral proceedings shall be fixed. Rule 132 shall not apply. New facts and evidence presented after that date need not be considered, unless admitted on the grounds that the subject of the proceedings has changed.

(2) If the applicant or patent proprietor has been notified of the grounds prejudicing the grant or maintenance of the patent, he may be invited to submit, by the date specified in paragraph 1, second sentence, documents which meet the requirements of the Convention. (1) The taking of evidence by the European Patent Office may be made conditional upon deposit with it, by the party requesting the evidence to be taken, of an amount to be fixed by reference to an estimate of the costs.

(2) Witnesses or experts who are summoned by and appear before the European Patent Office shall be entitled to appropriate reimbursement of expenses for travel and subsistence. An advance for these expenses may be granted to them. This shall also apply to persons who appear before the European Patent Office without being summoned by it and are heard as witnesses or experts.

(3) Witnesses entitled to reimbursement under paragraph 2 shall also be entitled to appropriate compensation for loss of earnings, and experts to fees for their work. These payments shall be made to the witnesses and experts after they have fulfilled their duties or tasks.

(4) The Administrative Council shall lay down the details implementing paragraphs 2 and 3. Any amounts due under these provisions shall be paid by the European Patent Office.

Rule 123

Conservation of evidence

(1) On request, the European Patent Office may, without delay, take measures to conserve evidence of facts liable to affect a decision which it may be called upon to take with regard to a European patent application or a European patent, where there is reason to fear that it might subsequently become more difficult or even impossible to take evidence. The date on which the measures are to be taken shall be communicated to the applicant for or proprietor of the patent in sufficient time to allow him to attend. He may ask relevant questions.

(2) The request shall contain:
(a) particulars of the requester as provided in Rule 41, paragraph 2(c);
(b) sufficient identification of the European patent application or European patent in question;
(c) an indication of the facts in respect of which evidence is to be taken;
(d) particulars of the means of giving or obtaining evidence;
(e) a statement establishing a prima facie case for fearing that it might subsequently become more difficult or impossible to take evidence.

(3) The request shall not be deemed to have been filed until the prescribed fee has been paid.

(4) The decision on the request and any resulting taking of evidence shall be incumbent upon the department of the European Patent Office which would have to take the decision liable to be affected by the facts to be established. The provisions with regard to the taking of evidence in proceedings before the European Patent Office shall apply.

Rule 124

Minutes of oral proceedings and of taking of evidence

(1) Minutes of oral proceedings and of the taking of evidence shall be drawn up, containing the essentials of the oral proceedings or of the taking of evidence, the relevant statements made by the parties, the testimony of the parties, witnesses or experts and the result of any inspection.

(2) The minutes of the testimony of a witness, expert or party shall be read out, submitted to him, so that he may examine them or, where they are recorded by technical means, played back to him, unless he waives this right. It shall be noted in the minutes that this formality has been carried out and that the person who gave the testimony approved the minutes. If his approval is not given, his objections shall be noted. It is not necessary to play back the minutes or to obtain approval of them if the testimony has been recorded verbatim and directly using technical means.

(3) The minutes shall be signed by the employee responsible for drawing them up and by the employee who conducted the oral proceedings or taking of evidence.

(4) The parties shall be provided with a copy of the minutes.

Rule 125 General provisions

(1) In proceedings before the European Patent Office, any notification to be made shall take the form of the original document, a copy thereof certified by or bearing the seal of the European Patent Office, or a computer print-out bearing such seal. Copies of documents emanating from the parties themselves shall not require such certification.

(2) Notification shall be made:

- (a) by post in accordance with Rule 126;

(3) Notification through the central industrial property office of a Contracting State shall be made in accordance with the law applicable to that office in national proceedings.

(4) Where a document has reached the addressee, if the European Patent Office is unable to prove that it has been duly notified, or if provisions relating to its notification have not been observed, the document shall be deemed to have been notified on the date established by the European Patent Office as the date of receipt.

Rule 126 Notification by post

(1) Decisions incurring a period for appeal or a petition for review, summonses and other such documents as determined by the President of the European Patent Office shall be notified by registered letter with advice of delivery. All other notifications by post shall be by registered letter.

(2) Where notification is effected by registered letter, whether or not with advice of delivery, such letter shall be deemed to be delivered to the addressee on the tenth day following its posting, unless it has failed to reach the addressee or has reached him at a later date; in the event of any dispute, it shall be incumbent on the European Patent Office to establish that the letter has reached its destination or to establish the date on which the letter was delivered to the addressee, as the case may be.

(3) Notification by registered letter, whether or not with advice of delivery, shall be deemed to have been effected even if acceptance of the letter has been refused.

(4) To the extent that notification by post is not

covered by paragraphs 1 to 3, the law of the State in which the notification is made shall apply.

Rule 127 Notification by technical means of communication

Notification may be effected by such technical means of communication as are determined by the President of the European Patent Office and under the conditions laid down by him.

Rule 128 Notification by delivery by hand

Notification may be effected on the premises of the European Patent Office by delivery by hand of the document to the addressee, who shall on delivery acknowledge its receipt. Notification shall be deemed to have been effected even if the addressee refuses to accept the document or to acknowledge receipt thereof.

Rule 129 Public notification

(1) If the address of the addressee cannot be established, or if notification in accordance with Rule 126, paragraph 1, has proved to be impossible even after a second attempt, notification shall be effected by public notice.

(2) The President of the European Patent Office shall determine how the public notice is to be given and the beginning of the period of one month on expiry of which the document shall be deemed to have been notified.

Rule 130 Notification to representatives

(1) If a representative has been appointed, notifications shall be addressed to him.

(2) If several representatives have been appointed for a single party, notification to any one of them shall be sufficient.

(3) If several parties have a common representative, notification to the common representative shall be sufficient.

CHAPTER V TIME LIMITS

Rule 131 Calculation of periods

(1) Periods shall be laid down in terms of full years, months, weeks or days.

(2) Computation shall start on the day following the day on which the relevant event occurred, the event being either a procedural step or the expiry of another period. Where the procedural step is a notification, the

relevant event shall be the receipt of the document notified, unless otherwise provided.

(3) When a period is expressed as one year or a certain number of years, it shall expire in the relevant subsequent year in the month having the same name and on the day having the same number as the month and the day on which the said event occurred; if the relevant subsequent month has no day with the same number, the period shall expire on the last day of that month.

(4) When a period is expressed as one month or a certain number of months, it shall expire in the relevant subsequent month on the day which has the same number as the day on which the said event occurred; if the relevant subsequent month has no day with the same number, the period shall expire on the last day of that month.

(5) When a period is expressed as one week or a certain number of weeks, it shall expire in the relevant subsequent week on the day having the same name as the day on which the said event occurred.

Rule 132

Periods specified by the European Patent Office

(1) Where the Convention or these Implementing Regulations refer to "a period to be specified", this period shall be specified by the European Patent Office.

(2) Unless otherwise provided, a period specified by the European Patent Office shall be neither less than two months nor more than four months; in certain circumstances it may be up to six months. In special cases, the period may be extended upon request, presented before the expiry of such period.

Rule 133

Late receipt of documents

(1) A document received late at the European Patent Office shall be deemed to have been received in due time if it was posted, or delivered to a recognised delivery service, in due time before expiry of the period in accordance with the conditions laid down by the President of the European Patent Office, unless the document was received later than three months after expiry of the period.

(2) Paragraph 1 shall apply *mutatis mutandis* to any period where transactions are carried out with the competent authority in accordance with Article 75, paragraphs 1(b) or 2(b).

Rule 134

Extension of periods

(1) If a period expires on a day on which one of the filing offices of the European Patent Office under Rule 35, paragraph 1, is not open for receipt of documents or on which, for reasons other than those referred to in paragraph 2, mail is not delivered there, the period shall extend to the first day thereafter on

which all the filing offices are open for receipt of documents and on which mail is delivered. The first sentence shall apply *mutatis mutandis* if documents filed by one of the technical means of communication permitted by the President of the European Patent Office under Rule 2, paragraph 1, cannot be received.

(2) If a period expires on a day on which there is a general dislocation in the delivery or transmission of mail in a Contracting State, the period shall extend to the first day following the end of the interval of dislocation for parties which are resident in the State concerned or have appointed representatives with a place of business in that State. Where the State concerned is the State in which the European Patent Office is located, this provision shall apply to all parties and their representatives. This paragraph shall apply *mutatis mutandis* to the period referred to in Rule 37, paragraph 2.

(3) Paragraphs 1 and 2 shall apply *mutatis mutandis* where acts are performed with the competent authority in accordance with Article 75, paragraphs 1(b) or 2(b).

(4) The date of commencement and the end of any dislocation under paragraph 2 shall be published by the European Patent Office.

(5) Without prejudice to paragraphs 1 to 4, a party concerned may produce evidence that on any of the ten days preceding the day of expiry of a period the delivery or transmission of mail was dislocated due to an exceptional occurrence such as a natural disaster, war, civil disorder, a general breakdown in any of the technical means of communication permitted by the President of the European Patent Office under Rule 2, paragraph 1, or other like reasons affecting the locality where the party or his representative resides or has his place of business. If the evidence produced satisfies the European Patent Office, a document received late shall be deemed to have been received in due time, provided that the mailing or the transmission was effected at the latest on the fifth day after the end of the dislocation.

Rule 135

Further processing

(1) Further processing under Article 121, paragraph 1, shall be requested by payment of the prescribed fee within two months of the communication concerning either the failure to observe a time limit or a loss of rights. The omitted act shall be completed within the period for making the request.

(2) Further processing shall be ruled out in respect of the periods referred to in Article 121, paragraph 4, and of the periods under Rule 6, paragraph 1, Rule 16, paragraph 1(a), Rule 31, paragraph 2, Rule 40, paragraph 3, Rule 51, paragraphs 2 to 5, Rule 52, paragraphs 2 and 3, Rules 55, 56, 58, 59, 64 and Rule 112, paragraph 2.

(3) The department competent to decide on the omitted act shall decide on the request for further processing.

Rule 136
Re-establishment of rights

(1) Any request for re-establishment of rights under Article 122, paragraph 1, shall be filed in writing within two months of the removal of the cause of non-compliance with the period, but at the latest within one year of expiry of the unobserved time limit. However, a request for re-establishment of rights in respect of any of the periods specified in Article 87, paragraph 1, and in Article 112a, paragraph 4, shall be filed within two months of expiry of that period. The request for re-establishment of rights shall not be deemed to have been filed until the prescribed fee has been paid.

(2) The request shall state the grounds on which it is based and shall set out the facts on which it relies. The omitted act shall be completed within the relevant period for filing the request according to paragraph 1.

(3) Re-establishment of rights shall be ruled out in respect of any period for which further processing under Article 121 is available and in respect of the period for requesting re-establishment of rights.

(4) The department competent to decide on the omitted act shall decide on the request for re-establishment of rights.

CHAPTER VI
AMENDMENTS AND CORRECTIONS

Rule 137
Amendment of the European patent application

(1) Before receiving the European search report, the applicant may not amend the description, claims or drawings of a European patent application unless otherwise provided.

(2) After receipt of the European search report, the applicant may, of his own volition, amend the description, claims and drawings.

(3) After receipt of the first communication from the Examining Division, the applicant may, of his own volition, amend once the description, claims and drawings, provided that the amendment is filed at the same time as the reply to the communication. No further amendment may be made without the consent of the Examining Division.

(4) Amended claims may not relate to unsearched subject-matter which does not combine with the originally claimed invention or group of inventions to form a single general inventive concept.

Rule 138
Different claims, description
and drawings for different States

If the European Patent Office is informed of the existence of a prior right under Article 139, paragraph 2, the European patent application or European patent may, for such State or States, contain

claims and, where appropriate, a description and drawings which are different from those for the other designated States.

Rule 139
Correction of errors in documents filed
with the European Patent Office

Linguistic errors, errors of transcription and mistakes in any document filed with the European Patent Office may be corrected on request. However, if the request for such correction concerns the description, claims or drawings, the correction must be obvious in the sense that it is immediately evident that nothing else would have been intended than what is offered as the correction.

Rule 140
Correction of errors in decisions

In decisions of the European Patent Office, only linguistic errors, errors of transcription and obvious mistakes may be corrected.

CHAPTER VII
INFORMATION ON PRIOR ART

Rule 141
Information on prior art

The European Patent Office may invite the applicant to provide, within a period to be specified, information on prior art taken into consideration in the examination of national or regional patent applications and concerning an invention to which the European patent application relates.

CHAPTER VIII
INTERRUPTION OF PROCEEDINGS

Rule 142
Interruption of proceedings

(1) Proceedings before the European Patent Office shall be interrupted:

- (a) in the event of the death or legal incapacity of the applicant for or proprietor of a European patent or of the person authorised by national law to act on his behalf. To the extent that the above events do not affect the authorisation of a representative appointed under Article 134, proceedings shall be interrupted only on application by such representative;
- (b) in the event of the applicant for or proprietor of a patent, as a result of some action taken against his property, being prevented by legal reasons from continuing the proceedings;

resulting from action taken against his property from continuing the proceedings.

(2) When, in the cases referred to in paragraph 1(a) or (b), the European Patent Office has been informed of the identity of the person authorised to continue the proceedings, it shall notify such person and, where applicable, any third party, that the proceedings will be resumed as from a specified date.

(3) In the case referred to in paragraph 1(c), the proceedings shall be resumed when the European Patent Office has been informed of the appointment of a new representative of the applicant or when the Office has informed the other parties of the appointment of a new representative of the proprietor of the patent. If, three months after the beginning of the interruption of the proceedings, the European Patent Office has not been informed of the appointment of a new representative, it shall communicate to the applicant for or proprietor of the patent:

- (a) where Article 133, paragraph 2, is applicable, that the European patent application will be deemed to be withdrawn or the European patent will be revoked if the information is not submitted within two months of this communication; or
- (b) otherwise, that the proceedings will be resumed with the applicant for or proprietor of the patent as from the notification of this communication.

(4) Any periods, other than those for requesting examination and paying renewal fees, in force at the date of interruption of the proceedings, shall begin again as from the day on which the proceedings are resumed. If such date is less than two months before the end of the period within which the request for examination must be filed, such a request may be filed within two months of such date.

Subject to the restrictions laid down in Article 128, paragraphs 1 to 4, and in Rule 144, the European Patent Office may, upon request, communicate information concerning any file relating to a European patent application or European patent, subject to the payment of an administrative fee. However, the European Patent Office may refer to the option of file inspection where it deems this to be appropriate in view of the quantity of information to be supplied.

Rule 147

Constitution, maintenance and preservation of files

(1) The European Patent Office shall constitute, maintain and preserve files relating to all European patent applications and patents.

(2) The President of the European Patent Office shall determine the form in which these files shall be constituted, maintained and preserved.

- (c) the patent or the corresponding protection under Article 63, paragraph 2, lapses in the last of the designated States.

(5) Without prejudice to paragraph 4, files relating to applications which have given rise to divisional applications under Article 76 or new applications under Article 61, paragraph 1(b), shall be preserved for at least the same period as the files relating to any one of these last applications. The same shall apply to files relating to any resulting European patents.

CHAPTER X

LEGAL AND ADMINISTRATIVE CO-OPERATION

Rule 148

Communications between the European Patent Office and the authorities of the Contracting States

(1) Communications between the European Patent Office and the central industrial property offices of the Contracting States which arise out of the application of this Convention shall be effected directly between these authorities. Communications between the European Patent Office and the courts or other authorities of the Contracting States may be effected through the intermediary of the said central industrial property offices.

(2) Expenditure in respect of communications under paragraph 1 shall be borne by the authority making the communications, which shall be exempt from fees.

Rule 149

Inspection of files by or via courts or authorities of the Contracting States

(1) Inspection of the files of European patent applications or of European patents by courts or authorities of the Contracting States shall be of the original documents or of copies thereof; Rule 145 shall not apply.

(2) Courts or Public Prosecutors' offices of the Contracting States may, in the course of their proceedings, communicate to third parties files or copies thereof transmitted to them by the European Patent Office. Such communications shall be effected in accordance with Article 128 and shall not be subject to any fee.

(3) The European Patent Office shall, when transmitting the files, draw attention to the restrictions which may, under Article 128, paragraphs 1 and 4, apply to file inspection by third parties.

Rule 150

Procedure for letters rogatory

(1) Each Contracting State shall designate a central authority to receive letters rogatory issued by the European Patent Office and to transmit them to the court or authority competent to execute them.

(2) The European Patent Office shall draw up letters rogatory in the language of the competent court or authority or shall attach to such letters rogatory a translation into that language.

(3) Subject to paragraphs 5 and 6, the competent court or authority shall apply national law as to the procedures to be followed in executing such requests and, in particular, as to the appropriate measures of compulsion.

(4) If the court or authority to which the letters rogatory are transmitted is not competent to execute

them, the letters rogatory shall be sent forthwith to the central authority referred to in paragraph 1. That authority shall transmit the letters rogatory either to the competent court or authority in that State, or to the European Patent Office where no court or authority is competent in that State.

(5) The European Patent Office shall be informed of the time when, and the place where, the enquiry or other legal measure is to take place and shall inform the parties, witnesses and experts concerned.

(6) If so requested by the European Patent Office, the competent court or authority shall permit the attendance of members of the department concerned and allow them to question any person giving evidence either directly or through the competent court or authority.

(7) The execution of letters rogatory shall not give rise to any reimbursement of fees or costs of any nature. Nevertheless, the State in which letters rogatory are executed has the right to require the Organisation to reimburse any fees paid to experts or interpreters and the costs arising from the procedure under paragraph 6.

(8) If the law applied by the competent court or authority obliges the parties to secure evidence and the competent court or authority is not able itself to execute the letters rogatory, that court or authority may, with the consent of the European Patent Office, appoint a suitable person to do so. When seeking such consent, the competent court or authority shall indicate the approximate costs which would result from this procedure. If the European Patent Office gives its consent, the Organisation shall reimburse any costs incurred; otherwise, the Organisation shall not be liable for such costs.

CHAPTER XI REPRESENTATION

Rule 151

Appointment of a common representative

(1) If there is more than one applicant and the request for grant of a European patent does not name a common representative, the applicant first named in the request shall be deemed to be the common representative. However, if one of the applicants is obliged to appoint a professional representative, this representative shall be deemed to be the common representative, unless the applicant first named has appointed a professional representative. The same shall apply to third parties acting in common in filing a notice of opposition or intervention and to joint proprietors of a European patent.

(2) If the European patent application is transferred to more than one person, and such persons have not appointed a common representative, paragraph 1 shall apply *mutatis mutandis*. If such application is not

possible, the European Patent Office shall invite such persons to appoint a common representative within a period to be specified. If this invitation is not complied with, the European Patent Office shall appoint the common representative.

Rule 152

Authorisations

(1) The President of the European Patent Office shall determine the cases in which a signed authorisation shall be filed by representatives acting before the European Patent Office.

(2) Where a representative fails to file such an authorisation, the European Patent Office shall invite him to do so within a period to be specified. The authorisation may cover one or more European patent applications or European patents and shall be filed in the corresponding number of copies.

(3) Where the requirements of Article 133, paragraph 2, have not been satisfied, the same period shall be specified for the appointment of a representative and the filing of the authorisation.

(4) A general authorisation may be filed enabling a representative to act in respect of all the patent transactions of a party. A single copy shall suffice.

(5) The President of the European Patent Office may determine the form and content of:

- (a) an authorisation relating to the representation of persons under Article 133, paragraph 2;
- (b) a general authorisation.

(6) If a required authorisation is not filed in due time, any procedural steps taken by the representative, other than the filing of a European patent application, shall be deemed not to have been taken, without prejudice to any other legal consequences provided for by this Convention.

(7) Paragraphs 2 and 4 shall apply to the withdrawal of an authorisation.

(8) A representative shall be deemed to be authorised until the termination of his authorisation has been communicated to the European Patent Office.

(9) Unless it expressly provides otherwise, an authorisation shall not terminate vis-à-vis the European Patent Office upon the death of the person who gave it.

(10) If a party appoints several representatives, they may act either jointly or singly, notwithstanding any provisions to the contrary in the communication of their appointment or in the authorisation.

(11) The authorisation of an association of representatives shall be deemed to be an authorisation of any representative who can provide evidence that he practises within that association.

Rule 153

Attorney evidentiary privilege

(1) Where advice is sought from a professional representative in his capacity as such, all communications between the professional representative and his client or any other person, relating to that purpose and falling under Article 2 of the Regulation on discipline for professional representatives, are permanently privileged from disclosure in proceedings before the European Patent Office, unless such privilege is expressly waived by the client.

(2) Such privilege from disclosure shall apply, in particular, to any communication or document relating to:

- (a) the assessment of the patentability of an invention;
- (b) the preparation or prosecution of a European patent application;
- (c) any opinion relating to the validity, scope of protection or infringement of a European patent or a European patent application.

Rule 154

Amendment of the list of professional representatives

(1) The entry of a professional representative shall be deleted from the list of professional representatives if he so requests or if, despite repeated reminders, he fails to pay the annual subscription to the Institute before the end of September of the year for which the subscription is due.

(2) Without prejudice to any disciplinary measures taken under Article 134a, paragraph 1(c), the entry of a professional representative may be deleted *ex officio* only:

- (a) in the event of his death or legal incapacity;
- (b) where he is no longer a national of one of the Contracting States, unless he was granted an exemption under Article 134, paragraph 7(a);
- (c) where he no longer has his place of business or employment within one of the Contracting States.

(3) Any person entered on the list of professional representatives under Article 134, paragraphs (2) or (3), whose entry has been deleted shall, upon request, be re-entered on that list if the conditions for deletion no longer exist.

PART VIII

IMPLEMENTING REGULATIONS TO PART VIII OF THE CONVENTION

Filing and transmission of the request for conversion

(1) The request for conversion referred to in Article 135, paragraph 1(a) or (b), shall be filed within three

months of the withdrawal of the European patent application, or of the communication that the application is deemed to be withdrawn, or of the decision refusing the application or revoking the European patent. The effect of the European patent application under Article 66 shall lapse if the request is not filed in due time.

(2) When transmitting the request for conversion to the central industrial property offices of the Contracting States specified in the request, the central industrial property office concerned or the European Patent Office shall attach to the request a copy of the file relating to the European patent application or European patent.

(3) Article 135, paragraph 4, shall apply if the request for conversion referred to in Article 135, paragraphs 1(a) or (2), is not transmitted before the expiry of a period of twenty months from the date of filing or, if priority has been claimed, the date of priority.

Rule 156

Information to the public in the event of conversion

(1) The documents accompanying the request for conversion under Rule 155, paragraph 2, shall be made available to the public by the central industrial property office under the same conditions and to the same extent as documents relating to national proceedings.

(2) The printed specification of the national patent resulting from the conversion of a European patent application shall mention that application.

PART IX

IMPLEMENTING REGULATIONS TO PART X OF THE CONVENTION

Rule 157

The European Patent Office as a receiving Office

(1) The European Patent Office shall be competent to act as a receiving Office within the meaning of the PCT if the applicant is a resident or national of a Contracting State to this Convention and to the PCT. Without prejudice to paragraph 3, if the applicant chooses the European Patent Office as a receiving Office, the international application shall be filed directly with the European Patent Office. Article 75, paragraph 2, shall apply *mutatis mutandis*.

(2) Where the European Patent Office acts as a receiving Office under the PCT, the international application shall be filed in English, French or German. The President of the European Patent Office may determine that the international application and any related item shall be filed in more than one copy.

(3) If an international application is filed with an authority of a Contracting State for transmittal to the European Patent Office as the receiving Office, the Contracting State shall ensure that the application reaches the European Patent Office not later than two weeks before the end of the thirteenth month from filing or, if priority is claimed, from the date of priority.

(4) The transmittal fee for the international application shall be paid within one month of filing the application.

Rule 158

(1) In the case of Article 17, paragraph 3(a) PCT, an additional international search fee shall be paid for each further invention for which an international search is to be carried out.

(2) In the case of Article 34, paragraph 3(a) PCT, an additional fee for international preliminary examination shall be paid for each further invention for which the international preliminary examination is to be carried out.

(3) Where an additional fee has been paid under protest, the European Patent Office shall examine the protest in accordance with Rule 40.2(c) to (e) or Rule 68.3(c) to (e) PCT, subject to payment of the prescribed protest fee. Further details concerning the procedure shall be determined by the President of the European Patent Office.

Rule 159

The European Patent Office as a designated or elected Office – Requirements for entry into the European phase

(1) In respect of an international application under Article 153, the applicant shall perform the following acts within thirty-one months from the date of filing of the application or, if priority has been claimed, from the priority date:

(h) file, where applicable, the certificate of exhibition referred to in Article 55, paragraph 2, and Rule 25.

(2) The Examining Division shall be competent to take decisions of the European Patent Office under Article 25, paragraph 2(a) PCT.

Rule 160

Consequences of non-fulfilment of certain requirements

(1) If either the translation of the international application or the request for examination is not filed in due time, or if the filing fee or the search fee is not paid in due time, or if no designation fee is paid in due time, the European patent application shall be deemed to be withdrawn.

(2) The designation of any Contracting State in respect of which the designation fee has not been paid in due time shall be deemed to be withdrawn.

(3) If the European Patent Office notes that the application or the designation of a Contracting State is deemed to be withdrawn under paragraph 1 or 2, it shall communicate this to the applicant. Rule 112, paragraph 2, shall apply *mutatis mutandis*.

Rule 161

Amendment of the application

Without prejudice to Rule 137, paragraphs 2 to 4, the application may be amended once, within one month from a communication informing the applicant accordingly. The application as amended shall serve as the basis for any supplementary search which has to be performed under Article 153, paragraph 7.

Rule 162
